VJ couplings trade brochure

The old VJ and gripper PDFs land on an enquiry page. The catalogue has no Viking Johnson SKU. The three photos are cast-iron fittings we do publish. They are not VJ couplings.

CI flange adaptor. Not a VJ.

CI repair connector. Not a gripper.

CI equal tee family. No VJ page.

No VJ SKU

No Viking Johnson coupling, gripper, or dismantling joint is in the product file. The valves hub already says we do not publish a VJ catalogue.

What we quote

OD, PN or class, restrained or not, gap, and coating. The high-pressure desk confirms whether that coupling is on the current list.

Do not swap parts

FSGI flange adaptors and the 110mm repair connector are different parts. Do not offer them as a named VJ coupling.

Price-free.

NOT A VJ

110mm CI flange adaptor SKU FSGI-FA-110-UNI

Size	110mm
Pattern	Flange adaptor
PN on title	PN16
Not	A VJ coupling

Leave these off a VJ line

- No VJ or Viking Johnson SKU in any size.
- No gripper SKU. Both old gripper PDFs point at this pack.
- No dismantling-joint page.

VJ couplings trade brochure

What to send

- Pipe OD and PN or class
- Restrained or unrestrained
- Gap to close
- Coating the spec names
- Whether a gripper is a separate line
- Brand the schedule names, if any
